

BISON PIPE

was founded in 2011, when its predecessor, Liberty-Rocky Mountain Pipe, was acquired by International Pipe, a third-generation family-owned and -operated business.

At International Pipe, along with our subsidiaries, including Bison, we have made a name for ourselves by supplying our customers with the highest-quality new, used, and surplus steel pipe available.

Located on 21 acres in Jerome, ID, Bison Pipe operates a full-service facility with offices, a processing center, and a state-of-the-art fabrication shop.

We take our reputation seriously and operate with the highest level of integrity. It is our mission to achieve excellence in customer satisfaction every day.
