BISON TOUGH JACK FENCING

THE DO-IT-YOURSELF STEEL FENCE SYSTEM

The **Bison Tough** Jack Fence System was designed in partnership with the Bureau of Land Management. Tested in the Sierra Nevada Mountains, the **Bison Tough** Jack Fence System was built to withstand the harshest natural conditions, while allowing wildlife to pass through safely AND containing herds to designated areas.

FEATURES

- Rugged & lightweight
- Built to BLM standards
- Easy DIY installation
- Perfect for hard to reach areas accessible only by air or UTV
- No post holes or welding
- Fire resistant
- Capped tops to protect bird wildlife
- Terrain specific adapters available
- Reusable for multiple applications

APPLICATIONS

- Riparian area recovery
- Livestock and equine containment
- Pedestrian and traffic control
